

VAIDIK ROKAD

+91 9408534410 Vaidik Rokad VaidikRokad123 vaidikrokad1245@gmail.com

EDUCATION

- Nirma University** Ahmedabad, Gujarat, India
B.Tech in Computer Science Engineering — CGPA: 8.33/10.0 Expected 2027
- Oxford School of Science** Amreli, Gujarat, India
12th Board: 99.28 PR (266/300), GUJCET: 99.16 PR (106.75/120) Mar 2023

TECHNICAL SKILLS

- Languages:** C++, C, Java, Python, JavaScript
- Frontend:** React, HTML5, CSS3, JavaScript (ES6+)
- Backend & APIs:** Node.js, Express.js, REST APIs, JWT Authentication
- Databases:** MongoDB, MySQL
- Tools & Platforms:** Git, GitHub, Docker, Postman, Linux
- CS Fundamentals:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

- Saeculum Solutions Pvt. Ltd.** Ahmedabad, Gujarat, India
Software Development Intern May 2026 – Jul 2026
 - Engineered 15+ full-stack features for an internal enterprise web platform on the MERN stack (React, Node.js, Express, MongoDB), shipping across 2 role-based portals serving administrative and self-service users.
 - Architected a granular Role-Based Access Control (RBAC) system with JWT authentication and a multi-level nested permission tree, securing 30+ REST API endpoints and conditionally rendering UI by user role.
 - Automated time-driven business workflows using a MongoDB-backed priority queue and cron schedulers, eliminating manual follow-ups by auto-dispatching reminders and notifications across 3 channels (email, chat, calendar).
 - Integrated 3+ Google APIs (Gmail OAuth2, Drive, Calendar) for transactional email, document storage, and event scheduling, and containerized backend services with Docker for reproducible deployments.

PROJECTS

- AI-Powered Restaurant Intelligence Platform** | MERN, LLaMA 3, Twilio  Code
 - Built AI-driven ordering across 3 interfaces (chat, voice, and phone via Twilio) on a MERN-stack platform handling menu, cart, and checkout flows.
 - Designed a revenue-analytics module with BCG product classification and dynamic pricing, plus a custom association-mining engine generating smart combos and real-time upsell recommendations.
- Banking Portal** | React, Node.js, Express, MongoDB  Code
 - Developed a secure banking application with JWT authentication, multi-currency accounts, and double-entry-ledger fund transfers, using Gmail OAuth2 to automate transactional email alerts on every account event.
- Smart Delivery Route Optimizer** | Python, Flask, React, DSA  Code
 - Implemented a route-optimization engine pairing K-Means clustering with Nearest-Neighbor + 2-Opt TSP heuristics to minimize total travel distance across delivery fleets.
 - Delivered capacity-aware truck allocation, interactive maps, Excel uploads, and per-vehicle analytics through a Flask REST API.

CODING PROFILE

- LeetCode:** **harry001 8** — Knight Badge, Rating 1863, Top 5% globally
- CodeChef:** **harry0018** — 3-Star Coder
- Codeforces:** **harry0018** — Pupil, Rating 1369
